

TAB 5

Recommendation: "Curator, Historical Intelligence Collection, collaborate with Chief, Operations School/OTR, to develop and publish a working collection of open intelligence literature a [REDACTED] which will fully reflect the existence and capabilities of the principal collection at headquarters."

The Director of Training, through the Chief, Operations School, OTR, has initiated action necessary to carry out the intent of this recommendation.

It might be noted here that OCR has been most cooperative in endeavoring to see to it that its Library is responsive to current training needs. OTR can offer nothing but praise in this regard.
